SUBJECT.

Proposals for the improvement of the

extension

---

1. 4138 d 24.6.96 from C. Narain Rau and others of
tension Pray that a Special Committee be
ed to look after the improvement of the ex
and that till then, the work in progress
ed to be stopped

2. $\frac{332}{\text{L.F.272-93}}$ d 8.7.96. ~~From~~ To the President Bangalore C
Municipality. Forwards the above for
3 9 d 13.7.96. From the President, Municipa
G. R. S. 56 Bangalore city — Submits a report o

Memo.

Certain residents of the Western Extension complained to Govt. that —

1) in many portions, lamp-posts have not been set up;
2) roads have not been properly laid out;
3) conservancy has not been properly attended to;
4) that the Prince Victor road has been arbitrarily raised above its original level so as to cover the basements of their houses;

and that all this was due to the divided responsibility of the Municipality and the ~~D.P.W.~~ suggested S/

No. 9 dy 11 July 96.

2. The Municipal President reported as follows:-

1) Lamp-posts. 40 of these have been set up at a cost of 500 Rs, yearly wherever roads are completed and fit for wheeled traffic.

2) Roads. With these the M.C. have nothing to do, being under the charge of the Sanitary Engineer.

3) Conservancy. Daily conservancy at a yearly cost of 534 Rs, is being carried out with carts [illegible] by a contractor, and with an establishment of 1 Daffadar or [illegible] scavengers, [illegible] by the Police.

4) Prince Albert Victor Road. A portion is being raised to [illegible] gradient easy: and [illegible]

houses will be placed at a dis- (2)
advantage. The owners were
referred to the Sanitary Engineer
for remedy.

In passing, the President charges the inhabitants with neglecting to build within 12 months and to provide V- Drains, keeping huge pits and dangerous wells, and refraining from giving cordial support to his endeavours.

5) Divided responsibility. This is deplored by the Presdt, who wishes all works to be placed under his charge as likely to facilitate and expedite matters greatly. There is not likely to be any work of such a scientific or intricate nature as to require superior professional agency.

3. This is what the Sanitary Engineer has got to say on points 4) and 5):- No. $\frac{3500}{536}$ of 1-10-96.

4) Prince Victor Road. The fixing of the basement levels of new houses rests with the Mcy: and the inconvenience complained of is due to the former Presdt having issued building licenses without ascertaining the levels proposed for the new roads. The level of the road has, however been ordered to be reduced to the utmost possible limit consistent with a practicable grade for carriage traffic, without having recourse to prohibitive blasting. And Mr Lee asserts that the owners have now no real grievance.

5) Divided responsibility. Mr Lee has no objection to the construction of all roads being placed entirely under the President, since they do not pertain to Sanitary work;

and will be prepared to hand them over whenever ordered.

4. What remains to be done by Govt. is —

i. An order transferring to the President ~~after duly~~ the entire execution of all works within Municipal limits, including roads.

ii. An endorsement to the Petrs. that their wants are being gradually ~~attended to~~ supplied by the Municipality which will be asked to devote its best attention to the matter, and that the inconveniences due to the raising of the P.V. road will be ~~mitigated~~ as stated by Mr. Lee.

6/12/96.

What are the steps in this regard and from what funds are they being carried out?

8-12-96

116 95 07 17 12-96

Memo

While submitting a report on the complaint in matters connected with the western extensions of Bangalore prefered by C. Varaam Row and certain residents of the suburb, the President of the Bangalore City municipality suggested that the entire execution of all works in the extension might be made over to him. Thereupon a copy of the Presidents' letter was communicated to the Sanitary Engineer for favor of a brief report on the Presidents' proposal (Pro cto $\frac{4132\ 3}{L\ F\ 116\text{-}95}$ dy 24 9-96 Sl cto 36).

cto 9 dy 13/7/96 (Sl cto 27 in L. F. 116-95)

(2) The Sanitary Engineer stated that there was no objection to place the construction of all roads in the extension under the President as they do not from

to $\frac{3500}{5.36}$ dy 1-10-96

part of Sanitary works (Sl (7)
clo 37)

(3) Subsequently both the President and the Sanitary Engineer were requested to state the works in progress in the western esctension and from what funds they were being carried out

Pro clo 7052·3 / 116-95 dy 17/12/96
Sl clo 42.

(4) The Sanitary Engineer reported that the only work in progress was the "Forming and completing of the roads in the western esctension" and that it is being carried out from a special grant from Provincial Funds under "Sanitary Works Budget Part III". Before the issue of final orders, the President was requested to submit the report referred to in para 3 above. Accordingly the President states that no works in Thana are under charge of the Municipality in the western esctension.

+ clo 278 / 56 dy 19/1/97 (Sl clo 3)

+ clo 184 dy 8/2/97

As the works now in progress are being carried out from Provl funds, the Sanitary Engr's letter is complete there.
14/2/97

Submitted for orders of Govt on the question of the transfer of roads
D.O. # 131 14/2/97

(8) 2 No 5040

Schedule 3.

See Para 4 of Govt Pro No 24999 - 25003 SH 82-92 dt 27-5-95. The estimate was sanctioned in the DRW. The work is being carried out from State funds. More than 2/3 rds of the work has already been ~~completed~~ done. The amount remaining to be spent is only Rs 7000 odd - it would not be worth while incomplete work of this : the Engineer -ing from the Sanctions relate and hand stones to the School Board. No such transfer seems to have been by Govt.

MYSORE DEW[illegible]
PETITION DEPARTMENT
4138 R

To R. Seshadry Iyer 2 ~~4 6 1954~~ 10 X
K C S I
Dewan of Mysore

Respectfully showeth,

I. The undersigned residents of the Western Extension, in Bangalore most respectfully beg to submit the following for your Excellency's kind consideration, and early orders—

II. Your memorialists are given to understand that the old Town had had to be extended on the western side, chiefly for two reasons,— 1st The old Town was over crowded, and therefore there was no sufficient accommodation for many people. 2nd Being over crowded, the Town was becoming unhealthy in many portions.

III. It is needless to say that your Excellency is the father of the Extension, and that your Excellency has earned an ever lasting name for the same.

IV. The Extension being a healthy locality, many persons have built splendid houses there, and it has become a great boon to the public.

V. In improving the said Extension the Government has already spent a considerable amount of money, but the wants of the residents have not yet

been fully supplied. In many portions Lamp Posts have not been put, have not been properly laid out, and Conservancy has not been properly attended to. This is all owing to the divided responsibility of the Municipality and the D.P.W.

V. As an instance of this, your Memorialists submit that the Pruill Victor Road, which is the Chief, and the most important one, in the Western Extension, which had been properly laid out sometime ago, has now again been most heavily raised to the height of 3 to 6 feet to the detriment, and inconvenience of many.

VI. Your Memorialists brought to this to the notice of the President, who referred the Complaint to the Sanitary Engineer. This latter officer, in his turn, ordered the Memorialists orally, to sue the Municipality for damages caused to them by raising the level of the Pruill Victor Road to the serious prejudice of the property residing in the neighbourhood.

VII. Upon this, your Memorialists asked the Sanitary Engineer to give a written reply to that effect, but he refused a deaf ear to their prayer. They therefore asked the President to convene a meeting and refer their Complaint to the Commissioners for redress but this prayer also has not been granted.

Your Memorialists finding no officer from the civil Corps near at approach your Excellency with this Memorial, and pray it as a special Committee be appointed to look into the

to supply the
, and remedy the evil
we have mentioned may be brought to their notice
for redress.

X Your memorialists further pray that till a special Committee is appointed, the extra work of the Pencil Vetor Road now in progress, may be ordered to be stopped.

XI Your memorialists request to bring to your Excellency's notice that no regard is being had to keep to former level of the Road, according to which your humble memorialists regulated the basement of their houses, which are now being buried owing to an arbitrary raising of the Road in question.

XII If your Excellency is only pleased to inspect the locality, your memorialists will be ready to wait upon your Excellency to point out the houses, which have been seriously affected by the injudicious raising of the level of the Road.

XIII Trusting that the grievances of your memorialists will receive a speedy redress at your Excellency's hands - they beg to remain

Your Excellency's most obedient & humble servants.

City Municipal Office
Bangalore,
Dated 11th/13 July 1896

No. 9
Enclosure

From,

The President
Municipal Commission
Bangalore City

To,

The Secretary to the Government
of Mysore,
Revenue and General Departments

Sir,

I have the honour to acknowledge receipt of Official Memorandum No. 332 L.F. 272-93 dated 8th July 1896, forwarding with reference to the petition* noted in the margin for report original petition No. 4138 of the 24th June 1896 from C. Narain Rao and others residents of the Western Extension, making certain remarks and complaints on matters connected with the Western Extension of the City. The petitioners definitely make complaints in paras 5, 6, 7 and 8 which I proceed to report on seriatim

*returned

Para V Lamp Posts - As far as the roads are completed and can be made use of for wheeled traffic lamp posts have been put up. There are now 40 lamp posts in the Western Extension proper, not including the suburbs of Gaiipur and new Madjar Palya etc. Since I assumed charge I had 10 of these placed. The total cost of lighting this Western Extension is nearly Rs. 500/- per annum.

Conservancy - There is a system of daily conservancy carried out by means of Board's agency the establishment for this purpose is composed of one Dafadar, five Scavengers and Sweepers and carts are supplied daily by a contractor, the whole supervised by a conservancy Overseer. The total cost of Conservancy is Rs. 534/- per annum.

Roads. - The Municipality has nothing to do with these. They are all under the orders and charge of the Sanitary Engineer.

Paras VI, VII, & VIII Prince Albert Victor Road. - A portion of this road

is being raised with a view of making the gradient easy. By thus raising the level certain houses built along-side, will be, it is understood, placed at a disadvantage. The owners com-plained to me. I had no remedy in my hands and I referred petitioners to the Sanitary Engineer who is in charge of the Work.

2. Having offered an explanation on the complaints preferred I beg you will permit me to take this opportunity of making some remarks for the inform-ation of Government. It is much too early for the petitioners to make com-plaints about lighting and conservancy. Only recently the assessment of houses has been introduced and up till now no income has accrued to the Board from the Extension. It will be observed from figures given above, that the present total charge for lighting and conservancy is Rs. 1034/- per annum, while the estimated income from the house assessment is Rs. 1376/12. It was the intention of Government that all sites should be built on within a certain period,

12 months, but this has not been done. (19) (11)
Except in the Eastern portion the
houses are built very sparsely and
notwithstanding that there are numbers
of vacant unbuilt sites, yet roads
and lamps are demanded by occupiers
of the few houses, on the same scale
as if all sites were built on and
fully occupied. The central and
Western portions are still in a very
backward state as far as roads are
concerned, and up to date no attempt
has been made to provide V section
drains along any road to catch sullage
water from occupied houses.

3. Since I assumed charge of the
Municipality I have paid many
visits to the Western Extension and
I found that with very few exceptions
every house owner has excavated
huge pits over his site. This is
very objectionable from a sanitary
point of view. Many useless wells
exist in some houses dangerous to
life and property. Many of the
houses have not even been provided
with latrines and consequently
the occupiers of such commit
nuisance wherever they can, the

unbuilt

unbuilt sites being very convenient for this purpose.

4. I have issued notices to all occupiers and owners who have by the above infringed or not complied with the Municipal Regulations and I have endeavored in all possible manner to improve the conditions of things in this locality. But I regret to say that my efforts have not received that cordial support which might be looked for from citizens who, like the petitioners, appear to be so desirous of maintaining clean and healthy surroundings to the locality they live in.

5. I submit that it is to be regretted there is a division of responsibility in regard to the system which obtains in developing improvements in this Extension, which is understood now to be under the control of the Municipality. If the Government would be pleased to issue orders to place the entire execution of all works under the President, it would facilitate and expedite matters much. There is a

work of such a scientific or nature now going on, or that can be anticipated to turn up, requiring superior professional agency in carrying out, while the clearly defined policy as laid down by the late City Improvement Committee is sufficiently lucid to guide and direct the modus operandi of the Municipal Executive in carrying out to a satisfactory termination the generous and liberal intentions of Government with regard to the Extension and improvement of this City.

I have the honor to be

Sir

Your most obedient Servant

T. T. Leonard

the above has the honour to
that the forming of the
of new houses fronts
and the former Precedent without the
acquiring of the levels proposed for
the new roads issued licenses for the
building of the houses the owners of
which now Complain that their floors
are lower than the roadway. On the
receipt of a petition from the petition-
ing section the undersigned ordered
the reducing of the level of the road
to the utmost possible limit that a
practicable grade for Carriage traffic
would admit without having recourse to
prohibitive blasting (the whole of the
locality being rock) and the owners of
these houses have now no real grievance.

As regards the proposal to
place the Construction of all roads
entered under the Precedent of the
Municipality, the undersigned sees
objection since they do not front on
Southern Roads, and will be prepared
hand them over when ordered.

Plan and enclosures are herewith
returned
